

**A PROMISE
IS A PROMISE.**

BE CONFIDENT OF YOUR FUTURE!

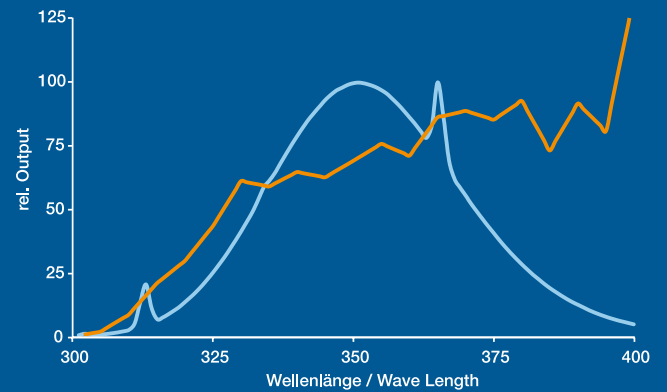

With Cosmedico as a partner,
your success is assured.

THE SPECTRUM IS THE KEY!

The proper tanning lamp spectrum not only guarantees safety – it assures excellent results! And, it provides that special ‘feel-good’ factor. Cosmedico’s experience inspires confidence.

THE SPECTRUM OF NATURAL SUNLIGHT IS OUR PASSION.

This means more than just UVA and UVB. With over 30 years of tanning experience we now offer lamps that actually enhance your 'zest for life'.

Cosmedico's lamps provide superb tanning and tangible bio-positive results. That ensures your customers return for more. No one does this better than Cosmedico!

An investment in Cosmedico quality today reaps rewards well into the future. When you recommend Cosmedico you are always recommending the very best.

*No compromises because differences in quality are crucial. Glass, noble gas, fluorescent material, coating, electrode material and electrode mount must be optimally matched. Experience is the key to getting it right. The safety of the lamps can only be guaranteed when minimum production tolerances are observed.

A PROMISE IS A PROMISE. HERE ARE 10 PROMISES FROM COSMEDICO:

[01] You can count on Cosmedico.

We see ourselves as a genuine trading partner with absolute reliability guaranteed in all areas. And it's particularly important to us to offer good personal service.

[02] Customer satisfaction is our main goal.

You have given your word to your customers. Cosmedico is here to ensure that your word will be backed up by our experience, knowledge and support.

[03] We're here when you need us.

Intelligent planning, on-time production, responsive logistics and a dedicated staff are here for you. We're happy only when you're happy.

[04] We've got the complete package – nothing less.

Cosmedico's complete product line – from lamps to ballasts to starters – has defined high performance and dependability for an entire industry for over 30 years. We also provide special products, e.g. private label-made just for you.

[05] Cosmedico's employees are world-class professionals.

Our 30+ years of experience and remarkable stability assures a knowledge base unmatched in the industry. Our continuing commitment to staff training and customer support assures your needs are professionally and swiftly addressed.

[06] "No compromise" products.

All our products are reliable, durable, tested, internationally renowned brands offered exclusively by Cosmedico. These attributes have defined Cosmedico products from the early development of the world's first sunlamps to the introduction of our path-breaking VHR system and the revolutionary 9K90 series.

[07] We're committed to world-class technical support.

Our service staff in the Technology department is always available to offer help and advice. Whatever you need – whenever you need it.

[08] QA is good. Double QA is better.

Cosmedico has global state-of-the-art production plants and spectral laboratories in Stuttgart and beyond. Cooperation with ISO-certified partners ensures superb quality for you and your customers. We also check our products a second time, just to be on the safe side – a two-stage final QA inspection of all products is standard procedure.

[09] We listen to you.

We treat your needs, questions and problems as our own. We support your individual aims and plans as well as centrally organised campaigns. Our Infoline is available to you and your customers by calling: freephone 0800 -1 61 79 00 within Germany or +49 711 -5 40 04 -0 outside of Germany.

[10] We support your business.

As the initiator and driving force behind the tanning industry, Cosmedico is involved in all the important organisations both in Germany and throughout the world. This means that we are always up-to-date on all the latest developments – and can provide you with the information whenever you ask. Our objective is to show the tanning industry in a favourable light by investing in bio-positive research and implementing targeted campaigns.

COSMEDICO.

CLOSER TO PEOPLE,
CLOSER TO THE SUN.

WITHOUT COMPROMISE.
