

Your success is our objective!

We therefore maintain close contact to dealers and tanning salons, to suppliers and partners – worldwide. We research, develop and provide information. We proactively support a sound growth of the industry.

This enable us to offer products, services and concepts which ensure that our partners and customers achieve sustained success.

We are committed to the idea of providing people with vitality and quality of life. Through our many years of experience we know what we're doing and we also take responsibility for people and the environment.

Global state-of-the-art production plants, a spectral laboratory in Stuttgart and cooperation with ISO-certified partners ensure the best possible quality.

come to another world

**COSMEDICO
PREMIUM**

*The discerning low pressure lamp range
for professional application.*

COSMEDICO PREMIUM

Low-pressure lamps of all wattages in different designs with high UVB percentages and short exposure times distinguish the Cosmedico Premium segment.

For your customers, that means: nice, intensive tanning and pure enjoyment.

Professionals around the world rely on the ORIGINAL VHR-technology.

Cosmedico is the innovator of long-mount lamps and it is only Cosmedico's well designed electrode and constant further developments that result in a genuine VHR lamp!

Cosmedico Premium lamps meet the highest standards of the sun-thirsty user. In addition, they are extremely efficient due to their above-average useful life of up to 1,200 hours.

Cosmedico Cosmolux VHO is the product without a reflector for sunbeds with individual reflectors or reflector trays.

The classic **Cosmedico Cosmolux VHR** for entry level produces the best deep tanning effect with 1.6 % UVB for a 9 minute exposure period.

Cosmedico Cosmolux VHR plus and **TT** offer outstanding tanning results for up to 2.1% UVB and 7–8 minutes exposure time.

This low-pressure lamp offers all the benefit of a high-pressure lamp: fresh, impressive, immediate tan and a nice long-lasting deep tan.

**9K90
ensures
satisfied
customers!**

The most effective lamp under the sun is **Cosmedico Cosmolux VHR 9K90!**

A special four-component fluorescent material creates unbeatable effectiveness for first class tanning results in a 9 minute exposure time.

Cosmedico Cosmolux VLR lamps complete the Premium range. The lamps have all the features of the VHR products at a maximum of 120 watts. They are thereby particularly suitable for sunbathing combined with VHR lamps in the sunbed roof.
